# CHL Events on the World Hypertension Day 2023 Final Report

### CONTENTS

- 1. WHL Children's Art Program
- 2. WHD Webinar by CHL
- 3. Hospital Free-Clinic Activities
- 4. Social Media Promotions
- 5. Metro Public Advertisements

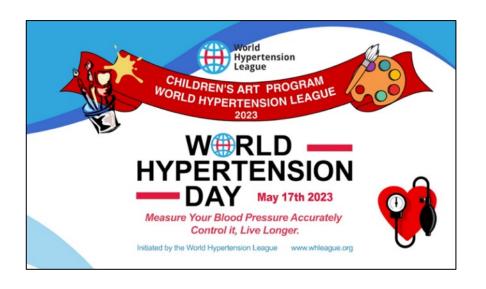

## 1. WHL Children's Art Program

The 2023 World Hypertension Day Children's Art Program is organized by the World Hypertension League and aims to raise awareness among young people about hypertension. The CHL has promoted this event domestically and organized active submissions from Chinese children and adolescents. 53 works from China were selected for the competition, awarded certificates by the WHL, and displayed on the website of the WHL. The youngest author among the selected works is only 4 years old.

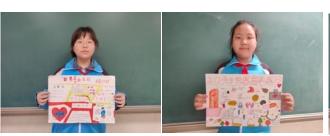

## 1. WHL Children's Art Program

Overall, we received **53** artworks from children around China.

3. Hospital Free-Clinic Activities

Chinese Hypertension League

CHL engage the national council members to carry out free clinic and patient education activities in more than 100 hospitals in China. As in previous years, each hospital will touch 200 patients and be expected to reach about around 20,000 people in China totally.

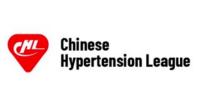

## 3. Hospital Free-Clinic Activities

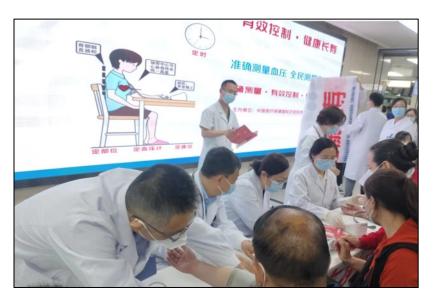

Before and after World
Hypertension Day on May 17th,
members and experts of the CHL
organized free clinics and health
education activities across the
country. At present, nearly a
hundred units have participated.

#### 中国高血压联盟 北京高血压防治协会 上海市高血压研究所 关于开展 2020 年"十月高血压宣传月"的倡议

#### 各有关单位及高血压联盟理事

2020年10月,全国高血压日(10月8日)与世界高血压日(10月17日)先后举办、中国高血 压联盟、北京高血压防治协会、上海市高血压研究所联合发起"十月高血压宣传月",共同强议各有关 学术组织、单位、企业、高血压联盟理事及相关人员积极响应,在十月全国高血压日和世界高血压日前 后集中组织开展高血压宣传教育活动,以提高高血压患者自我管理的知识水平,推动全社会对高血压防 治的重视。

根据國際高血至学会最新发布的 2020 (國際高血压实法規制物)。高血压是一种全球性機性非传染 性疾病,每年有 1040 万人死于高血压。高血压的发病趋势明确显示,全球高收入地区和中低收入地区 分别约有 3.49 亿人和 10.4 亿人患有高血压,高血压人群的疾病负担已从高收入地区转入了中低收入地 区、全球高血压到患病率及其对心血管发病和死亡的不利影响都在增加。因此,至关重要的是,应采取 基于人群的措施,以降低全球范围内高血压增加的负担。

根据 2019 年《中国心血管健康与疾病报告》,高血压也是中国圆临的重要公共卫生问题。2013 年中国有 250 万人死于高血压,占全部死因的 27.5%。中国高血压调查 (CHS) 健康显示,2015 年 中国≥18 岁成人高血压患病率为 27.9%。全国有 2.45 亿高血压患者。高血症的动脉率为 51.6%、治疗 季为 45.8%、控制率为 16.8%,与 1991 年和 2002 年的结果比较,近十多年来我国高血压的 "三率" 均有大噪级的改善。但随着世人老龄化的加速,我国威血压的治疗势仍十分严峻。

各相关单位与高血压联盟理事可根据当地政府及医院疫情防控要求,自行决定是否开展线下义诊 承担义诊相应工作和责任。

感谢各相关单位的参与和支持

CHL will officially publish the announcement for World Hypertension Day through social media platforms, and will publicly release it to all hospitals and the public across the country through official media. Through social media exposure, tens of millions of people will receive knowledge popularization.

#### 4. Social Media **Promotions**

On World Hypertension Day, social media exposed and forwarded various project activities organized by CHL, attracting widespread attention from the whole society.

## 5. Metro Public Advertisements

In Guangdong Province of China, on World Hypertension Day, advertisements will be displayed on the city's metro billboards to promote World Hypertension Day and remind the general public to adhere to blood pressure measurement.

## 5. Metro Public Advertisements

The advertisement for World Hypertension Day is prominently displayed in subway carriages and aisles, promoting the message of Hypertension Day to the general public.
